

SPORT OBJECTS

Fred-Aubert Stadium

SAINT-BRIEUC, FRANCE

The Fred-Aubert Stadium serves as the home ground for Stade Briochin and also hosts the women's division matches of En Avant Guingamp.

Originally inaugurated in 1990, the stadium has played a key role in the region's football activities. A major renovation project was completed in 2023. With a budget of over 5 million euros, the project involved demolishing the 1957 grandstand to build a modern structure with 1,079 seats. The new grandstand also features updated facilities, including ground-floor locker rooms, designed to improve the experience for both players and spectators.
