

PUBLIC BUILDINGS

Main Town Hall

GDANSK, POLAND

The recent renovation of the Main Town Hall aimed to preserve its historical character while improving the building's technical condition.

The interior of the Town Hall has been equipped with modern installations, enhancing its functionality and comfort while respecting the original style of the rooms. As part of the renovation, the historic tar lantern was also restored, once again adorning the facade and paying homage to the city's old traditions. Thanks to these efforts, the Town Hall has maintained its status as one of Gdańsk's key landmarks, blending historical heritage with modern conservation standards.
